**MACHINE LEADERS REFUSE  
GOOD COUNSEL.**

Many leading Salem Republicans have suggested that their party assist in the good work of city government as it has been carried on the past year. They know a good thing when they see it, and realize that Republicans are as much responsible for the change as any one, but it seems their wise counsel in this matter is not to be heeded. The active party leaders for revenue who have carried our city into the mire of financial distress and their party into disrepute, do not propose to be moved by the good advice of the rank and file, nor by the kindly suggestions of the faithful war-horses of the party. These bosses, who far good reasons do not care to let their names appear in the matter, have put their foot down upon everything but machine methods, and propose to run primaries and party tickets regardless of good advice or the public interest. As a result there will be another effort made to whip into line every man who is a Republican regardless of consequences.

These little bosses don't seem to know that they are dead, and refuse to recognize the progressive order of things that has been brought about in Salem by the co-operation of the wisest men in their party with other good citizens for the betterment of public affairs. Some of the most ardent machine men now even admit that the new deal is a big improvement for the people, but as it does not contribute to their personal profit they say they are bound as loyal partisans to oppose it. One of their number who was most active in fighting the new charter and especially the home bonding movement, says now it is positively too bad that all our bonds were not of the same kind. When the election was held authorizing those bonds they urged their friends to vote against the proposition, and there were only about a dozen such votes cast. Now they acknowledge the merit and economy of the proposition, but still they would use their entire party machinery to defeat the movement that made such good work possible. That may be good politics, but it is far from good citizenship, and many even doubt its being good politics.

**The Best Prescription for Malaria**  
Chills and Fever in the form of Groves' Tonic. It is simply iron and quinine in a tasteful form. No other, no matter how good, is as effective.

From Cottage Grove.  
I was much surprised to find such a beautiful and wide-awake little city up here in the mountains.  
The city, at the present time contains a population of about 1300 wide-awake.

**Wasting**

Are you nervous, restless, pale and easily tired? Perhaps the scales can tell you why. If your weight is below your average, that explains it.

Scott's Emulsion is a fat-producing food. You soon begin to gain and you keep on gaining long after you stop taking it. For all wasting diseases, in both young and old, it is the one standard remedy.

get here as soon as the first boats get in, and then you can sell all at a good price.

"One of the boys said just now that he took out one day last week 24 ounces and other days 6 and 8 ounces."

"I think as soon as I can I will go to St. Michaels after grub. I hope you are having a good time eating apples and fruit. I would give \$5 to get a square meal once more."

**The Coming of the Meteors.**  
New York, Nov. 14.—A grand celestial parade of meteors is scheduled for today, and three years must elapse ere the last meteor in possession passes out of sight. When the path of the meteors crosses that of the earth, the earth passes obliquely through the stream, and is exposed to the downpour of meteors for several hours. Today the earth will begin to plunge through the richest section of the great ring of Leonid meteors, circling in an enormous elliptical orbit around the sun, so that each particular meteor, moving independently and every part of the ring completes its revolution in very nearly a third of a century.

The shower or thicket part of the ring cannot be less than 100,000 miles wide and is so extended that, despite its very high velocity of 44 miles per second, it takes more than a year to pass the earth's orbit. The first great and well recorded display of these fiery meteors was in 1833, though astronomical literature traces their fall upon our planet as far back as the tenth century. The second took place in 1866, and was seen by all eyes.

Cottage Grove Leader: What a pity Oom Paul Krug has the entire British Empire to fight instead of Cecil Rhodes the instigator of the entire trouble, and the combat could not come off on the open field without interference.

The present school board acted wisely in ordering that at least two weeks residence be required in this district before children can go to school. As nearly all cases of infectious diseases have been brought here, it is high testimony to Salem's excellent sanitary conditions.

The village of Three Oaks has obtained, shipped direct from Manila, "a beautiful brass gun, 7 1/2 feet in length, 10 inches at the muzzle, 14 inches at the butt, weight 20 1/2 pounds." It is one of the cannon taken from the Spanish at the capture of the city.

The wise merchant exerts himself these last two months of the year to work off his holiday stock and carry over as little as possible of wares that are unsaleable at this season. To that end he persistently and judiciously tethers the newspapers.

The paragraph of the Albany Herald is a red-headed young man who is rushing the season:  
Bring the carpet, will you dearest?  
Hang it on the line so high—  
Get away, the dust will kill you—  
Watch me beat it 'till I die.

**Schley Will Take Command.**  
WASHINGTON, Nov. 14.—Admiral Schley is under orders to take command of the South Atlantic station today and to proceed to that station in the flagship Chicago immediately thereafter. Secretary Long in an interview expressed the opinion that Schley would go to South Africa, basing it on the fact that that part of the dark continent was with the geographical limits of the South Atlantic station and it was customary for the flag officer in command to visit all principal points within his jurisdiction during his tour of duty. The Secretary said, also, that there was no present prospect that the squadron under Schley's command would be increased. He acknowledged, however, that if any emergency justified it, there would be no hesitation in augmenting Schley's force.

**A Gaelic League.**  
New York, Nov. 14.—The annual meeting of the Gaelic League of America will be held here today. Delegates from every Irish language society in the United States and Canada are expected to be present. The language used during the convention will be Irish exclusively. Prof. Robinson of Harvard will be the guest of honor, and will participate in the proceedings. The object of the convention is to devise means to spread and encourage the movement in America looking toward perpetuating the language of the Gael.

**The Molasses Murder Trial.**  
New York, Nov. 14.—It is likely that the trial of Roland B. Malinowski, charged with having caused the death of Mrs. Kate J. Adams last December, will be called before Judge Goff today.

**JOURNAL X-RAYS.**

A dyspeptic mind causeth a dyspeptic stomach. Then be cheerful.

Crocker croaks on Bryan, and there are other Democrats with their lightning rods up.

The Mill Co. may or may not rebuild that mill. But they or someone should rebuild that sidewalk.

Do we not need quarantine to protect our children against profraternity, cigarettes, gambling and other vices, quite as much as against the rash or itch?

Delaying the count to alter the returns very properly enrages the country people of Kentucky. Such things are no offense among city politicians.

Ashland capitalists are pushing for a railroad into the Klamath country. Salem should push for one into Tillamook and across into Eastern Oregon.

Anonymous "excerpts" from an insurance manager's letter make very timely campaign thunder just now, and there are probably "forty-seven others."

Dan Tarpley is said to be one of Salem's best Republican workers, and is no doubt working hard to put matters in good shape for the coming city primaries.

The Salem football team should be given the enthusiastic backing of Salem people. It has the physical makeup, an excellent manager, and one of the best coaches on the coast.

The JOURNAL is optimistic. It does not believe in working up every little eruption of skin or fifth disease into a case of smallpox and damaging the business of every merchant in the city.

The Albany Democrat scores thus: The Boers have run their republic since 1835 and have behaved themselves pretty well. Who that loves our republic wants to see them lose theirs now?

Manager Dan Tarpley evidently thinks our present city government is not the right kind, and has called Republican primaries to undo the same. Dan knows a good thing when he gets it.

above every other medicine stands the record of Dr. Pierce's Golden Medical Discovery as a remedy for diseases of the blood, stomach and organs of digestion and nutrition. The claim is made that it will cure ninety-eight persons in every hundred who are suffering from the diseases for which it is prescribed. That claim is based upon the actual record that it has cured ninety-eight per cent. of those who have used it, and the number of these reaches to the hundreds of thousands.

**STRENGTHENS THE STOMACH**

Let no dealer sell you a medicine said to be "just as good." Just as good medicines don't cure.

"About ten years ago I began to have trouble with my stomach," writes Mr. Wm. Connolly of 333 Walnut St., Lorain, Ohio. "It got so bad that I had to lay off of work often two and three days a week, my stomach would bleed, and I would be sick up and down. I was in awful distress at such times. I have been treated by the best doctors in this city but got no help whatever. I wrote to you for advice. You thought I had liver complaint and advised the use of your 'Golden Medical Discovery' and 'Pain-Expeller' in connection. These medicines I have taken as directed, and am very happy to state that I commenced to get better the first day I started and have not had a day since on account of my stomach. I feel tip top and better than I have in ten years."
